# DO NOT CUT PLEASE RETURN FULL FORM WITH YOUR PARCEL

#### **RETURNS LABEL**

If you are not using our discounted returns service, the above returns label can be cut out and stuck on the front of your parcel. If you'd prefer to write the returns address, please do so clearly and exactly as stated above. This will ensure your return gets back to the right place for us to act quickly upon it. If you need any support or have any further questions please contact our customer experience team on 0333 030 0777.

### ITEMS BEING DELIVERED SEPARATELY

The reason items are sometimes sent separately is because some items are dispatched from different warehouses, some items are temporarily out of stock and we didn't want to hold up your entire order, or some items are larger and need to be handled in a different way to the rest of your order.

## HOW TO REFUND, REPLACE OR EXCHANGE AN ITEM

Please call our helpful customer experience team on 0333 030 0777. They will advise whether you can return your item(s), the best way to send them back and then all you need to do is fill out the below form and return your item.

#### **EXCHANGE**

For instances where you wish to exchange the product received for an alternative product of the same cost, please tick exchange on the returns form overleaf and write in the product code now required in the Exchange Product Code column. Or for alternative products of various costs, list the item codes in the Notes section overleaf, ensuring their total value is the same as the value of the returned item. We will not charge P&P on any exchanged orders.

For instances where you wish to exchange the product for an item of lesser cost than the returned item, the difference in cost will appear as credit on your account once the item is received back into the warehouse and the exchange sent out.

For instances where you wish to exchange the product for an item of greater cost than the returned item, please write the product code required in the Exchange Product Code Column. Once we receive this form back, we will call you to take the extra payment. Please make sure your phone number is included in the notes overleaf. We will not charge P&P on this exchanged item.

Very Important: Both columns need completing on the form overleaf – a tick in the EXCHANGE column and a product code of the item you require in the Exchange Product Code column.

#### REPLACEMENT
